Testimonials:

There are many reasons I have chosen to use Creative Celebrations. They have unique, unforgettable parties. From the minute you walk into the party, the Creative Celebrations staff have already set up the entire party. The party is ready to begin the minute your guests arrive. The entire party flows smoothly whether you have 15 guests or 35. The staff was attentive to all the guests and kept the activities flowing and exciting for all.

I would definitely recommend using Creative Celebrations. They do an incredible job!

Super Science Party, Messy Fun Party, Gross Me Out Party, Carnival Party

Thank you very much for celebrating with us. The kids absolutely loved making slime and play dough. I had so many positive comments.

Amy Rubenstein is the Pied Piper when it comes to children. Creative Celebrations' birthday parties are strictly magical. Creative Celebrations entertained at my twin's 4 year old party and from the moment the children walked in to the moment the party ended, they had the children's attention 100%. In fact, I had mother's complimenting me well after the party ended. I will continue to use Creative Celebrations and recommend them highly.
